## Z-Axis Combined Package

**Combined Package**

Checking this allows us to know you would like your seat and back configured into a single system. Still fill out the seat and back sections completely and mark STP-100 below for the seat tray and your system will be configured into the single system. This option is not an upcharge.

## Z-Axis Combined Package with Ultra-Lite

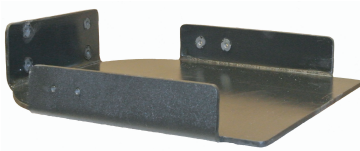

**Combined Package with Ultra-Lite**

Checking this allows us to know you would like your seat and back configured into a single system. Still fill out the seat and back sections completely and mark STP-200 below for the seat tray and your system will be configured into the single system with the Ultra-Lite materials. This option is not an upcharge.

**Combined Package with Low Profile Ultra-Lite Design**

Choose this design for self propel clients using a streamlined seat and back typically used with rigid frame chairs. Still fill out the seat and back sections completely and mark STP-200 below for the seat tray and your system will be configured into the single system with the Ultra-Lite materials. This option is not an upcharge.
