Custom Seating Combined Package

- Z-Axis Combined Package**
Checking this allows us to know you would like your seat and back configured into a single system. Still fill out the seat and back sections completely and mark **STP-100 or STP-300** below for the ABS seat tray and your system will be configured into the single system. This option is not an upcharge.
- Z-Axis Combined Package - Ultra-Lite**
Checking this allows us to know you would like your seat and back configured into a single system. Still fill out the seat and back sections completely and mark **STP-200 or STP-400** below for the Aluminum seat tray and your system will be configured into the single system with the Ultra-Lite materials. This option is not an upcharge.

Combined Package with Low Profile Ultra-Lite Design

- Z-Axis Combined Package - Low Profile Ultra-Lite Design**
Choose this design for self propel clients using a streamlined seat and back typically used with rigid frame chairs. Still fill out the seat and back sections completely and mark **STP-200 or STP-400** below for the Aluminum seat tray and your system will be configured into the single system with the Ultra-Lite materials. This option is not an upcharge.
